7.1 Accessible Student Transportation	1 of 1	April 2009

Policy Statement

STS is fully supportive of integrated student transportation for all students where it is safe and practical to do so. Students with special needs will be transported on traditional school buses and specialized transportation will be utilized in situations where, due to the nature of the disability or safety concerns, appropriate alternative accessible transportation is required because the features of the vehicle are more suitable to the student's needs.

Procedure

- STS will make specialized transportation arrangements for students who have been identified and approved by the School Board as:
 - Having a permanent physical, mental or emotional disability that safely prevents them from getting to and from their Board-designated school;
 - Being placed in a congregated classroom.
- Application forms for Specialized Transportation are due annually to STS by June 15.
