High School Bus Basics

Confirm that the address is eligible for transportation online. Note: the eligibility tab is current year (21-22) and updates to year future (22-23) are posted in mid-May. We recommend you check back to see if there were any changes to the school boundaries.

Students who elect to register at a school other than their board-designated school will not receive transportation.

Some high schools offer specialty programs but not every program qualifies for transportation. Check with the school to avoid disappointment.

Bus stop assignments change significantly for high school students. They are expected to walk up to 1.6 kms to a bus stop in residential areas.
